SUMMARY

Enthusiastic and highly skilled Web Developer with 4+ years of experience in designing and developing responsive, user-friendly websites and applications. Proficient in front-end and back-end technologies, with a strong foundation in React, HTML/CSS, JavaScript, and Java. Eager to contribute to innovative web development projects that push the boundaries of digital experiences.

TECHNICAL SKILLS

- **Front-End:** HTML5, CSS3, JavaScript, React
- **Back-End:** Node.js, MySQL
- **Languages:** Java, Python
- **Tools & Platforms:** Git, GitHub, AWS

EDUCATION

Bethune-Cookman University — Daytona Beach, FL

Bachelor of Science in Computer Information Systems

Expected Graduation: August, 2025

RELEVANT COURSEWORK

- **Database and Operating Systems**
- **Database Technologies for Web Applications**
- **Dynamic Web Design I, Dynamic Web Design II**

EXPERIENCE

Web Development Intern — Adapt EI, Bethune Cookman University/ NASA

May 2024 – August 2024

- Collaborated with a team of developers to design and implement a dynamic e-commerce platform using React and Node.js, Html and CSS
- Developed and maintained front-end components, ensuring responsive design across various devices.
- Improved website performance by optimizing code and implementing best practices, resulting in a 20% increase in load speed.
- Integrated third-party APIs to enhance user experience, such as payment gateways and real-time data updates.

Freelance Web Developer — Self-employed

June 2021 – Present

- Designed and built websites for small businesses and non-profits, delivering fully responsive and SEO-optimized solutions.
- Utilized HTML, CSS, and JavaScript to develop custom themes for WordPress and other CMS platforms.
- Collaborated with clients to define project requirements, timelines, and deliverables, ensuring satisfaction and quality.

PROJECTS

Capstone Project: Web Application for NASA

- Led a team of four in developing a full-stack web application using React for the front end and Node.js/MongoDB for the back end.
- Integrated user authentication, event scheduling, and real-time notifications to create a seamless user experience.
- Deployed the app on AWS, achieving 99.9% uptime and real-time data synchronization.

Portfolio Website

- Created a personal portfolio site to showcase projects and technical skills.
- Used React and CSS to design an interactive, responsive UI, with smooth transitions and engaging design.
